A. PRECAUTIONS:

These dummy CCTV Cameras are produced in the same dome as real CCTV cameras. This gives authenticity to the look of the camera, but with the addition of the flashing LED only.
This is a simple and cost effective solution for a visible deterrent to would-be thieves. An flashing LED is available, which is an additional indication that the camera is active. Each dummy camera with 1 flashing LED's come with 2 AA Batteries (not include) which will operate the flashing LED for about 2-3 month.

Dummy Camera with Flashing Led Light
- Appears like Real Cameras with RED FLASH Light
- Can be used for Indoor /outdoor
- Economical Way to Deter Theft
- Simple and Easy Installation
- Battery Work upto 3 months

DUMMY SECURITY CAMERA with FLASHING LED
Now you can deter robbery theft" and vandalism without the high cost of a real security camera.
When placed in your home or business" even the most sophisticated criminals will think the premises is guarded by a high-tech surveillance system and go in search of an easier target.
In fact" this is an actual dome surveillance camera that has been modified into a "Dummy " or fake security camera. This dome dummy camera is designed to imitate the small" high tech security cameras on the market today. This unit contains a flashing red LED light which draws extra attention to the camera" particularly at night. Installs quickly and easily to the ceiling or wall using the included screws.

B. INSTALLATION:
